

THE AUSTRO-BRITISH SOCIETY HOROSCOPE 2026

by Eva Vaskovich-Fidelsberger

The planets indicate tendencies – we decide how we deal with them and what we make of them.

Strengthen positive constellations through conscious effort, make use of opportunities, and view challenging aspects as an invitation to rethink your life and put things in order.
Crises are also opportunities!

"Happiness is the only thing that doubles when you share it."
(Albert Schweitzer)

I wish you health, contentment, success, and many wonderful hours with family and friends in 2026.

Yours sincerely,
Eva Vaskovich- Fidelsberger

ARIES

Saturn and Jupiter both play a role this year. From mid-February, Saturn issues a warning: bring order into your life and let go of unnecessary baggage. Do not rush things, and be especially cautious from 1-23 January, 10 April-17 May, and 12 August-28 September. Mars can tempt you into impulsive actions.

From July onwards, however, Jupiter - the planet of good fortune - becomes your promising companion. Commitment pays off, including financially (though thrift is advisable until the end of June).

Dynamic Mars influences from 24 January-2 March, 29 June-11 August, and 29 September-25 November boost willpower and stamina. The planet of love shines brightly from 18 January-10 February, 7-30 March, 25 April-19 May, and 14 June-9 July.

TAURUS

Until the end of April, Uranus provides restless background music. Stay realistic and handle changes cautiously. Mars is also a source of unrest – especially from 24 January–2 March, but also 18 May–28 June and 29 September–25 November. You may overestimate yourself or act too hastily. Mars strengthens your assertiveness from 1–23 January, 12 August–28 September, and 26 November–31 December. Jupiter is your bringer of luck in the first half of January; financial and property matters can also be settled to your advantage.

Love and friendship are well favoured from 1–17 January, 31 March–24 April, and 10 July–6 August.

GEMINI

Whatever happens, from July onwards Jupiter supports your Gemini Sun – all's well that ends well! Until mid-February, Saturn may still feel burdensome if issues from 2025 remain unresolved. After that, Saturn is on your side, gently grounding you in reality.

From May, Uranus in Gemini may tempt you into risky changes. Extra caution is advised 3 March–9 April, 29 June–11 August, and 26 November–31 December, when Mars creates tension.

Mars strengthens determination and endurance 24 January–2 March, 10 April–17 May, and 29 September–25 November.

Pleasant hours and interesting encounters are indicated by Venus 18 January–10 February, 25 April–19 May, 7 August–10 September, and 26 October–4 December.

CANCER

Get your affairs in order during the first half of the year while Jupiter, the planet of luck, is in Cancer. Problems may arise, but solutions are easier to find, and finances also benefit.

From mid-February, Saturn may prompt you to rethink certain areas – do not ignore these signals.

Avoid overloading yourself 1–23 January, 10 April–17 May, and 12 August–28 September; take things slowly.

Success is favoured 3 March–9 April, 18 May–28 June, and 26 November–31 December.

Your private life develops positively, with lovely moments 11 February–6 March, 20 May–13 June, 11 September–25 October, and 5–31 December.

LEO

Change beckons (Uranus stirs things up!), but caution is advised until the end of April – especially 24 January–2 March when Mars also intervenes.

From May onwards, Uranus boosts creativity and curiosity, and from early July Jupiter also supports you. Many things succeed, including financially. Restraint is advisable 18 May–28 June and 29 September–25 November, as Mars may overstimulate ambition.

The love skies are bright blue 7–30 March, 14 June–9 July, 7 August–10 September, and 26 October–4 December.
